

INDUSTRIAL USE APPLICATION

SUPPLEMENTAL ENVIRONMENTAL INFORMATION

Purpose

The information requested in this form will be used to determine the environmental impact of your project as part of the application review process.

Instructions

Consult the Sherwood-Regina Planning District Zoning Bylaw and Map to determine the zone in which your proposal is located and the conditions pertaining to the proposed use within that zone. If the proposed use is a discretionary use this form must be attached to the discretionary use application form.

The form must be attached and fully accurately completed in order to permit an expedient review of your application. Uncompleted submissions may be returned to the applicant for completion prior to the review process.

Evaluation

The Development Officer will review and evaluate the application and environmental information and will consult with the technical advisors as required to assess environmental implications.

The decision to approve an application will be based in part on the assessment of the submitted information, a possible site visit, and input from the project review process.

The application will be approved or approved with conditions, or not approved with reasons for the non-approval stated. An appeal exists from a decision on an application where the applicant or some other person feels aggrieved by the decision.

Note – The information in this application may be provided to other agencies and organizations in the review of the proposed development.
