To whom it may concern;

**RE: Snow Removal in the Industrial Parks**

It has been found that many businesses in the Industrial Parks have been stock piling snow either in the ditches or on the edge of the roads and approaches. The Rural Municipality of Sherwood No. 159 Public Works Department is asking each of the businesses in the Industrial Parks to please remove these snow piles as they are creating problems with snow drifting and line of sight. Other problems that will arise will come in the spring when the snow starts to melt. The excess of snow will cause an excess of run-off which will back up and possibly flood your property. It would be greatly appreciated if you can remove these snow piles.

If you have any questions or concerns, please feel free to contact me at 306-525-5237.

Thank you for your cooperation!

Regards,
