

WATER METER SERVICE & BILLING APPLICATION

Application Fee of \$50.00 plus applicable Water Meter Deposit must accompany this completed application form.

Step One: Business & Property Owner Information

Business Information:

Contact Name		Company Name (if applicable)			
Primary Phone Number	Cell Phone Number	Fax Number	E-mail Address		
Apt. No. – Street No.	Street Name/ P.O. Box – Rural Route	City	Province/Territory	Postal Code	

Property Owner Information (If Different from Business):

Property Owner Name		Company Name (if applicable)			
Primary Phone Number	Cell Phone Number	Fax Number	E-mail Address		
Apt. No. – Street No.	Street Name/ P.O. Box – Rural Route	City	Province/Territory	Postal Code	

Step Two: Connection Type

Please indicate the type of property, type of connection and type of task you are planning to work on as per the choices provided below. Also, please indicate whether or not the use of the property is expected to change in terms of the business activity (ie: warehousing to manufacturing).

Which of the following scenarios best describes the property and work you'd like to perform?

- Single Property**
I am working on a single address property with no additional units.
- Single Property with multiple units**
I am working on a multiplex building with multiple units requiring work.
- Range of Single Properties**
I require connections for a series of new single properties in a new subdivision.

What is the Type of Connection?

Commercial Retail Institutional Office Other

Are you changing the use of the property?

- Yes** – I am changing the property use.
- No** – The property shall stay the same.

What is the Type of Task?

- New Connection**
New private water service installation from the RM of Sherwood supply to the building.
- Renewal**
Replacing existing private water service from the RM of Sherwood supply to the building.
- Temporary**
Temporary water service installation from RM of Sherwood supply to the building. Pre-approval and inspection required by the RM of Sherwood before installation and at disconnection.
- Seasonal**
New private water service installation from RM of Sherwood supply to the building with the intent of metering on a seasonal basis only.
- Repair**
Repair of existing private water service.
- Disconnection**
A Water Service shall be disconnected from the RM of Sherwood supply, unless the owner intends to reuse said service within one year of application. Deposit will be refunded upon proof of reusing the water service within the one year period.

Step Three: Connection Details

Please provide the address where the work is being performed along with the size of the water service pipe, size of the water meter requested, and the type of pipe material being used. Please note that if plastic pipe is being used, an ESA Certificate will be required. Proposed domestic water demand must be provided only for commercial, institutional and industrial water services as well as residential services greater than 25mm (1"). Any special instructions or comments can be further added at the bottom of the page."

Water Service Conditions

1. The Applicant agrees to pay for water at the rates and time specified in the schedule of rates to be established by the R.M. of Sherwood No. 159.
2. The Applicant agrees that this application shall become a binding contract when accepted by the R.M. of Sherwood No. 159 and such contract shall expire on notice by either party.
3. No person shall draw water from, open, close, cut, break, or in any way injure or interfere with any fire hydrant, water main, water pipe or any property of the utility.
4. Meters – Should any meter become damaged, the Applicant shall pay the cost of removing and replacing the meter and the costs of any repairs to the damaged meter.
5. The R.M. of Sherwood No. 159 shall not be deemed to guarantee an uninterrupted supply or sufficient water or uniform pressure and shall not be liable for any damage or injury caused or done by reason of the interruption on supply, or variation of pressure for any purpose.
6. Applications for new water service connections will not be completed until a valid Building Permit is obtained by the Applicant or the Owner of the Property.
7. Connections to central water systems will not be carried out until this application is approved by the R.M. of Sherwood No. 159.
8. A suitable backflow prevention device is to be installed and tested (at the owner's expense) before connection will be permitted by the R.M. of Sherwood No. 159. A completed Cross Connection Control report must be supplied to the R.M. of Sherwood. This form is available from the R.M. of Sherwood No. 159 office and on our website, www.rmofsherwood.ca.
