

Project Information Sheet

PROJECT DESCRIPTION

REHABILITATION OF THE OVERPASS on Highway No. 11 over the Highway No. 6 located north of Regina, Saskatchewan (C.S. 11-01), and for the **CONSTRUCTION OF A SURFACING STRUCTURE** required to raise the grade on Highway No. 11 for a **TOTAL DISTANCE OF 0.75 km**.

PROJECT DETAILS

- The Contract number for this project is B21108.
- The Contractor for this project is PCL Construction Management Inc. (PCL).
- The Contractor's address as indicated on the bidder's signing block is:
 - 1433 1st Avenue, Regina, SK, S4R 8H2.
- Contract supervision will be provided by WSP Canada Inc. (WSP) personnel.
- The construction is expected to begin on April 24, 2022 and is projected to be completed by October 31, 2022.
- The estimated cost of this project is \$6.5 million, including materials and construction engineering.
- During construction, traffic on Highway No. 11 will be diverted to existing ramps and newly built crossover with two-way traffic, with overall reduced traveled width of 4.3 metres. Public traffic on Highway No. 11 and Highway No. 6 can expect some delays and disruptions to their normal schedules near Regina, SK. Delays in travel time will not exceed 20 minutes. Traffic accommodation devices will be set up, including traffic lights on Hwy No. 6, and maintained throughout the duration of the project by qualified personnel from PCL. Motorists will be required to lower speeds to 40 km/h or less within the construction zone.
