Project Information Sheet

PROJECT DESCRIPTION

Construction of twin overpasses on the northbound and southbound lanes of Highway No. 6 over Highway No. 1 located south of Regina and for the construction of a surface structure required to raise the grade on Highway No. 6 and associated ramps for a total distance of 3.0 km.

PROJECT DETAILS

- The Contract number for this project is B22057.
- The Contractor for this project is PCL Construction Management Inc. (PCL).
- The Contractor's address, as indicated on the bidder's signing block, is:
    - 1433 1st Avenue, Regina, SK, S4R 8H2.
- Contract supervision will be provided by WSP Canada Inc. (WSP) personnel.
- The construction is expected to begin on March 27, 2023, and is projected to be completed by October 31, 2024.
- During construction, traffic on Highway No. 6 will be diverted to existing ramps and newly built crossover with two-way traffic, with an overall reduced travelled width of 4.3 metres. Public traffic on Highway No. 1 and Highway No. 6 can expect some delays and disruptions to their normal schedules near Regina, SK. Delays in travel time will not exceed 20 minutes. Traffic accommodation devices will be set up and maintained throughout the duration of the project by qualified personnel from PCL. Motorists will be required to lower speeds to 40 km/h or less within the construction zone.
- The estimated cost of this project is $25 million, including materials, construction engineering and PST.
