

PUBLIC NOTICE – ROAD RESTRICTIONS

RE: SB90 Road application to occur the week of June 19, 2023

The RM of Sherwood will be applying SB90 dust control on certain RM roadways as a pilot project.

There will be road restrictions for the following roads while the product is being incorporated into the roadway:

- Fleet Street North of Inland Drive
- RR2205 (Condie Rd) North of Armour Rd
- RR2212 (Sherwood Forest Road) and entrance roadway into the Sherwood Forest Park

S.B.-90 is a high asphalt, non-emulsified, cold mix, maintainable road oil. Properly applied, S.B.-90 cures to a smooth and stabilized driving surface that repels water and retains surface aggregate.
